

CBmed is a globally strong growing biomarker research company with its headquarter in Graz, Austria. Currently over 50 international companies and research organizations have joined CBmed in its medical biomarker research.

It links excellent research infrastructure, scientific expertise, medical knowledge, national and international industry partners for systematic medical biomarker research. Business language is English.

To strengthen our team, we are seeking to recruit an ambitious, committed

Biomedical Engineer/Data Scientist

Tasks:

- Modeling of medical data (i.e. fluid and electrolyte management of critically ill)
- Contributing to knowledge discovery and handling of research questions
- Liaison between intensivists and biotech industry partners
- Management and structuring of clinical database
- Publication of research work in scientific journals and at international congresses

Skills and Abilities:

- MSc or higher in biomedical engineering or equivalent
- Strong skillset in MATLAB, R and SQL
- Experience in model building, simulation and control systems theory
- Advanced spoken and written English and German
- Good verbal and written communication skills
- Excellent organizational and problem-solving skills

You will have the opportunity to work in an international connected company, within a young and dynamic team.

We offer an unlimited contract with an annual salary from € 22.735,00 (34.102,50) gross based on 20 (30) hours/week.

Start date **01.07.2019 or earlier.**
