

CBmed is a center for biomarker research in medicine with headquarter in Graz. It links excellent research infrastructure, scientific expertise, medical knowledge, national and international industry partners for systematic medical biomarker research.

To strengthen our team in Graz, we are seeking to recruit an ambitious, committed

Immunohistochemistry expert (all genders)

Tasks:

- Designing and executing laboratory testing for research projects in the field of immunohistochemistry
- Establishment of new laboratory testing procedures
- Performing chromogenic and fluorescent immunohistochemistry (monoplex and multiplex)
- Recording and analysing laboratory data using a LIMS system
- Active participation in TQM related workflows
- Writing reports, reviews and summaries and presenting laboratory results
- Performing maintenance and quality control measurements for laboratory equipment
- Supporting publication and dissemination of research work

Skills and Abilities:

- Biomedical Analyst / Molecular Biologist / Biologist / all similar with a BSc degree or higher
- Beneficial: experience with multiplex fluorescence IHC, and/or In-situ hybridization
- Advanced spoken and written English and German communication skills
- Excellent organizational and problem-solving skills
- Beneficial experience in GxP, and / or other quality related norms and regulations
- Ability to work autonomously and accurately
- Openness to work in an international team

You will have the opportunity to work in an international connected company, within a young, dynamic and international team.

We offer an unlimited contract with a minimum monthly salary from € 3350 gross based on 40 hours/week. Overpayment is possible, depending on qualifications and work experience. Applications are welcomed on an ongoing basis. Full time or part time positions possible.
